

Cummins® B3.3 Replacement Engine Parts

Reliance Power Parts is pleased to announce the availability of replacement parts for the Cummins B3.3 engines. These engines are offered in both naturally aspirated and turbocharged configurations. Cummins standardized the design making many parts interchangeable between engines. The Cummins B3.3 engines are found in a wide range of industrial applications, specifically Komatsu excavators and generator sets. Komatsu identifies the Cummins B3.3 engine as the 4D95LE. Additionally, these engines are used in a variety of agricultural applications.

Reliance offers high quality parts for the Cummins B3.3 engine at a competitive price. The full offering includes: overhaul kits, piston and ring sets, engine bearings, rod and camshaft bushings, full engine gaskets, varied head parts, and oil seals. We will continue to add more parts in the coming months.

There is a big population of these engines offering real opportunity in the parts and service aftermarket. Think of us when you have requirements for B3.3 Cummins parts, or better yet, add these items to your next stock order!
