John Deere NRE504914 350 Series Powertech Lube Oil Pump.

Reliance is pleased to announce the introduction of 350 Series Powertech lube oil pumps. We now have NRE-504914 lube oil pumps in stock. These pumps are used in the following 350 Series Powertech engines:

ENGINE APPLICATION

4045D, T & H Powertech

6068D, T & H Powertech

These pumps have taken some time to develop and required a significant tooling investment. The end result is an oil pump of the highest quality, assuring top performance and eliminating the possibility of severe engine damage caused by lesser quality pumps.

This is a very popular item. Be sure to include these popular lube oil pump assemblies in your next stock order.
